

HOSEN TIMES

Special Edition 2016 AUTUMN-WINTER

New subject “Risu-Inter” has started

I asked some questions about the new subject “Risu-Inter” to Mr. Yonezawa, who teaches the subject.

Q1: Why was this new subject “Risu-Inter” made?

Because we are looking for new style to learn, themes are thought, idea and corporation.

Q2: What do students usually do?

They exchange their ideas and thoughts and form new ones.

Q3: What does the subject “Risu-Inter” effect for students?

I hope the students will begin to think and act of their own motion. But before that, I hope they feel the school is fun.

Q4 Do you have any plans that the students will be surprised in the future?

I’m thinking of plans that the students can have fun.

After the interview

This year the school celebrated its 10th anniversary. "Risu-Inter" is a subject aimed at the next 10 years. It's important to look at education of this schools reform. I knew that this subject was made for living in today's global society. I think that this school's education is advanced.

Intellectual and Open-Minded place

Mr. Fuji's personal history:

Came to Hosen in 1990

Worked in the Girls' School for 17 years

Associated with Risu-Inter for 8 years.

Became the principal in his 26th year (2015).

I wanted to ask about Hosen to a person who knows the most about Hosen. So I thought that must be the principal. Below is the interview.

1. What kind of place do you think is “an intellectual and open-minded place”?

I think the place of the encounter with the person to be important.

2. What kind of person can contribute to Hosen?

A student(a player), a teacher(a coach), the parents(the supporter), and the graduates(the OB and OG) who lend a helping hand to the juniors. Each group is aware of the respective roles so they can contribute to our school.

3. Do you think Hosen is “an Intellectual and Open-minded Place” now?

“An intellectual and Open-minded Place” is the ideal aim. We believe that something important to the education process is trying to achieve this ideal.

In other words, rather than those already completed, we believe that should continue the unremitting efforts in order to realize.

The current state of the problem self-examination of what, we want to continue to be done from the standpoint of trying to achieve the “intellectual and open-minded place”.

After the interview

I thought this was worth doing because the principal looked very happy and said to me to come again whenever you like.

Club Times

Welcome to Club Times! My name is Kenta and I will explore the greatest clubs of Hosen in this article.

The reason I decided to do this article about clubs is that I joined this school in September and I wanted to know lots of things about Hosen especially clubs. Before I came back to Japan, I was living in England and there were only a few clubs so as I start to know about Hosen, I also want to enjoy the afterschool clubs.

About Clubs

In Hosen there are currently 19 clubs in total that are held after school every Tuesday, Thursday and Saturday. However sometimes there are practices or games on Sunday especially for the sports clubs.

BASEBALL CLUB

Baseball club is one of the sports clubs and the club I am in. I interviewed to some of the members in the baseball club.

Q&A

1. Tell me about this club.(A question to the captain)

A. This is the baseball club and there are 13 members currently. We are working hard to win a match.

2. Why did you decide to join this club? (A question to the 1st grade new member)

A. The reason I decided to join this club is that I've been playing baseball since I was young and my baseball team became 2nd place in Tokyo.

3. Could you give us a message to new students who are looking forward to joining this club next year? (A question to the captain)

A. Please join our baseball team. It is very fun to play and we are aiming to win one game. We look forward to seeing new members next year. You can join even if you've never played baseball before. If you are interested in joining our baseball club, we will welcome you!

After the interview

After discovering Hosen's clubs, I learnt a lot more about clubs, such as the teamwork between the members and their effort to achieve a target. So I am going to work as hard as the other students and I want to keep on making the articles about Hosen to show how good this school is!

Events in Hosen

Sports Day

Sports day in 2016 at Hosen was done in very sunny and hot weather.

There were so many interesting things. For example, So-ranbushi. So-ranbushi is the dance of fisherman. So-ranbushi is done with junior high school students grade 1, 2, 3. Because it is done by lots of people, it is very powerful. I did So-ranbushi and this was my first time doing it. The sound, dance, clothes were very unique so it was very interesting. The lunch was very good after we were all tired. When I got home my skin got darker and my eyes were quite red. But it was good experience!

Hosen-Sai is when you do lots of things in each class. For example students choose to do ghost houses, maze, and physical strength tests. In some classes they wear the same clothes it is payed for by students. It is designed by students as well. Hosen-Sai is in October. The materials for things that each class does, the students have to go buy or get somewhere by themselves. For example, if you want to get card board you can get it from super market. If you want to see the Hosen-Sai you need to be invited. Also you need to have a ticket for it. If you are a high school student you can sell stuff like Takoyaki and Yakisoba but you have to think about profit. Each class has a different thing so when you come to Hosen-Sai you should go every class. Also there is a market that sells school uniform and other things. I haven't done Hosen-Sai so I hope it goes well.

After the interview

After the interview I learned about the facts that I didn't know. It was a good experience to interview to teachers. When I asked about Hosen Sai it sounded good so I hope it will be the greatest school festival.

Survey to 1st Grade students

I carried out a survey of 125 students in first grade at Hosen Risu Inter Junior High School.

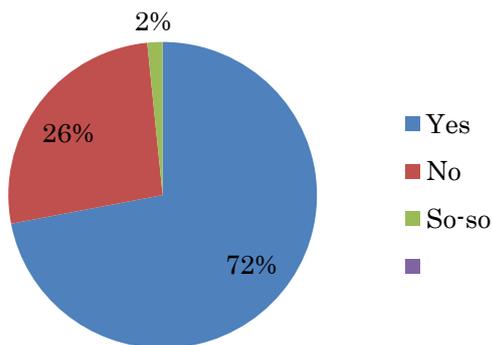

Q1 What subjects do you like?

- 1st Science 36
- 2nd Math 35
- 3rd English 25
- 4th PE 24
- 5th Social Studies 21

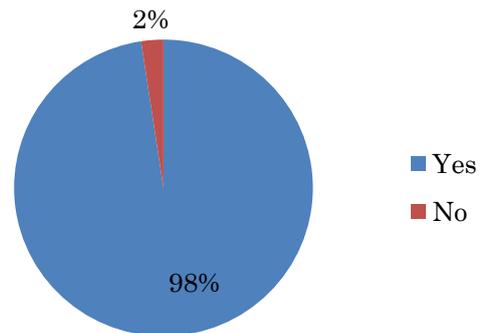

Q3 What would you like to do in English lessons?

- Games
- Using I-pad or PC
- Watching movies
- Having a party
- Reading English books
- Presentation
- Having conversation with foreigners

Q2 Do you like English lessons?

Q4 Do you think English is necessary in the future?

98% of students think that English is necessary in the future. However, 26% of the students don't like English lessons. Mm!

About Our Native Teachers

Interviewing one of the native teachers in Hosen Gakuen

Today in this newspaper I will interview and write about a native teacher in Hosen. We have four native teachers, Geoff, Matt and Cedric.

And also we have a new teacher from New Zealand, Callian.

I will write about interview answer from Matt.

Q1 When did you feel that you wanted to be a teacher?

A1: First I wanted to be a teacher because I had lots of teachers in my family. I also liked reading when I was young. Also my best subject is English so that is why I wanted to become a teacher in Hosen.

Q2 Why did you want to be a teacher in Japan?

A2: I wanted to be a teacher where nobody could speak English.

Q3 What do you like about Hosen's English curriculum?

A3: I like Hosen's curriculum because I can pick what I think the students can do what I think it is very important.
